

Echo Control Banners

Echo Control Series

APPLICATIONS

Arenas | Cafeterias | School Gymnasiums | Auditoriums

Perform Acoustics sound absorbing baffles (EC-BN) are designed to be draped or suspended from ceiling surfaces. This has the added benefit of having two absorptive surfaces (twice the square footage) in comparison to surface mounted panels. Available with fabric, PVC or nylon finishes. Acoustical banners are most effective in large venues like gymnasiums, arena, stadiums and cafeterias where often hard ceiling surfaces are found. Perform Acoustics EC-BN units can add color and outstanding sound absorption in high volume spaces.

MECHANICAL SPECIFICATIONS

Core: 3/4 PCF fiberglass, various thickness available

Sizes: Custom sizes up to 4' x 25'

Edges: Natural

Finishes: Fabric, nylon, PVC

Mounting: Painted washers, stiffeners

Flammability: All components have a Class "A" rating per ASTM E84

ACOUSTICAL SPECIFICATIONS

Hz	125	250	500	1000	2000	4000	N.R.C.
EC-BN2	1.09	.97	.92	1.05	1.00	1.11	1.00
EC-BN4	1.31	1.11	1.14	1.17	1.15	1.19	1.15

Note: Sound absorption is based on using our standard fabric. Results may vary with the use of other materials.
